Do I need to use Facebook, X (Twitter) or other social media on a course?

Jelena - 2024-07-02 - Our courses

Although not necessary, using social media for a European Schoolnet Academy course will make the experience more fun! Joining the Facebook or LinkedIn groups of the courses and following the discussions using the X (Twitter) hashtags will enable you to meet like-minded participants, exchange useful resources and information, and share your thoughts and ideas on the courses. Of course, you should not forget to check out the course forums, where you can also pose questions about the course to us and your fellow participants.
