What are the technical requirements for participating in a course?

Jelena - 2024-07-02 - Requirements

To participate in a course, you need nothing more than a stable Internet connection and the latest version of a common internet browser.

The European Schoolnet Academy is best viewed using Chrome or Firefox, but is also certified for Microsoft Edge, Opera and Safari.

In some courses we will offer webinars or TeachMeets, for which we use Microsoft Teams. If you have never attended a meeting through Microsoft Teams before, here is a quick overview. You do *not* need a webcam or a microphone for the webinars.
