Are there any requirements?

Jelena - 2024-07-02 - TeachMeets

If you want to present, obviously you must be available during the TeachMeet itself. We also expect presenters to join the obligatory rehearsal, to make sure their hardware works as expected. It is also important for you to be comfortable with presenting in English. Lastly, you need a good Internet connection: if from the rehearsal it turns out that your connection is too weak, you may be disqualified from presenting.
