I would like to be a presenter. What do I do?

Jelena - 2024-07-02 - TeachMeets

First, determine what you want to present. As a speaker, you can discuss any subject related to your course topic, whether it is an assessment method, an interesting tool, a useful inquiry activity, a resource, or any relevant insight or experience. Then, propose your topic to the course coordinators by filling in the presenter form – you'll find the link on your course's 'Live Events' page. If you are selected, you will typically have one week to prepare 3-6 slides.
